

# Wake-up call over carbon

By SUN REPORTER

A **REPORT** showing our greenhouse emissions are rising is alarming, Environment Minister **John Gormley** said yesterday.

The Environmental Protection Agency's projections show meeting the EU's target of a 20 per cent reduction in **carbon emissions** by 2020 will be extremely difficult to achieve.

Mr Gormley said: "The figures show the enormity of the challenge we all face in meeting our commitments under the Kyoto Protocol."

Calling the **EPA report** a wake-up call for the country, the Green Party leader added that the Government was determined to reduce emissions.

Alarm . . . Gormley
